## Tamdeen Group

**Company** TAMDEEN GROUP is a financial and investment developer for real estate and commercial projects.

**Briefing** A neat and elegant atmosphere should be created with the interior design concept. Yet offices and furnishing had to be highly functional and practical. These requirements were successfully met by a combination of Bene products from the T-Platform portfolio for the cellular offices, P2 desks for the executive offices and AL\_Group products for the meeting rooms. The whole space was structured by a combination of RG and R2 partitioning systems with shelves.

**Furnished zones and areas** Executive offices, secretary, cellular offices, meeting rooms.
